**Units**

**DEFINITION OF A UNIT**

Units of credit are based upon the Carnegie Unit, which requires a minimum of 3 hours of course-related work per unit of credit each week throughout a 16-week semester.

During a 16-week semester at Gavilan College, a typical 3 unit lecture class will meet an average of 3.3 hours per week for classroom instruction and require an additional 6.7 hours per week of outside work (reading, library research, problem-solving, projects, term papers, etc.) for a total of approximately 10 hours of course-related work per week (or 160 total hours for the course). This time requirement increases to 27 hours per week during a 6-week summer session.

Units of credit earned in laboratory/activity classes are also based upon the 3 hours per week per unit ratio.

A typical full-time load is approximately 15 units per semester, requiring a minimum of 720 hours of course-related work when class lectures, labs and outside
