Student Learning Outcomes

Student Learning Outcomes (SLO's) are the learning goals for a course. By looking at the SLO's for a course, you can get a feeling for what you would learn if you take the class. If you have any questions about the SLO's, please feel free to contact the instructor. Thanks for choosing Gavilan College, The College of Choice!

Course Description

A study of theory, philosophy, and principles of income tax law and procedures for computing the tax liability. It includes practice in solving typical individual tax problems. This course has the option of a letter grade or pass/no pass. PREREQUISITE: ACCT 103 or ACCT 20

Learning Outcomes

- Students will describe and evaluate the role of the progressive income tax in this country.

- Students will gather, analyze, and interpret tax data. Students will explain and interpret tax law, solve tax problems, organize the data and summarize it by completing tax returns and schedules.
