Dear folks,

I'm writing to let you know that the recently revised templates and instructions for your self-study are now available at the IEC website, on the Intranet. Click on "IEC Documents" and then the form for your area under "Self Study Packets" (either Instructional or Institutional Support.)

For examples of completed forms, you can click on the link "All Programs", and then choose an example or two to view. Please choose an example from the last year or two, as the forms have been updated and older examples will be dissimilar to what is expected now. You can also view your program's last self-study at that link.

Once again, here are the important dates to remember:
First draft of Self-Study: due 2/3/14
Meeting with IEC Committee: either 3/12 or 4/2/14
Revisions due: 5/12/14

I have also included the Orientation powerpoint presentation here if you should wish to review it. It can also be found on the IEC website.

Please don't hesitate to contact your program support team, or any member of the IEC, if you should have questions about how to complete the form.

Many thanks
Erin
