CSUMB $4,200 Stipend STEM Opportunity for Community College Students: CCARE Program [Click here]

To learn more about all the internship opportunities, [Click here]

Have you ever thought of pursuing a career in Science, Technology, Engineering, or Math, (STEM)?

([Español](es)))
**Gavilan College** has been awarded three successive STEM grants (News) through the Department of Education to build our programs and support our students.

We Also offer:

**Academic support:**

Supplemental Instruction, Academic Excellence Workshops (AEW), in class tutoring, the Math Lab, the [STEM Center](#), and Math Boot Camps will help you with the rigorous academic requirements of STEM courses.

**Employment Opportunities:**

We hire student tutors for the Math lab, the STEM Center, as Supplemental Instruction Leaders, and as in class tutors. We also offer training for these positions.

**Paid Summer Interns:**

Students gain valuable work experience doing research with Professors from San Jose State or working in private industry after the second or third year of coursework.
The STEM Academy:

This summer program provides information on STEM careers and educational opportunities; assistance with writing resumes, getting financial aid and scholarships, applying for internships and four year universities; connection to other students, campus resources and services, and preparation for math. (Learn More)

Accelerated Math Classes:

Get two semesters of Math completed in one semester and develop confidence and mastery in math to provide a strong preparation for future courses.

MESA Program:

Mathematics, Engineering, Science Achievement (MESA) Community College Program provided academic development to educationally disadvantaged undergraduate community college students so they will excel academically and transfer to four-year institutions in calculus-based majors.
