III. ACTION ITEMS

1. Old Business

   (a) Expenditure Reduction Task Force/Reductions to the Unrestricted General Fund Recommendations, Fiscal Years 2012-13 and 2013-14
   Dr. Steve Kinsella reported that these items are recommended by President’s Council which he also recommends to the Board. The item regarding specific dollar amounts reduced from Athletics is not in the recommendation, Community Ed has reduced its general fund support, and we are working with the Child Development Center to reduce expenditures.
   MSC (T.Breen/T.Ruiz) to approve
   Discussion: In response to Mark Dover, Dr. Steve Kinsella stated that if the state budget is favorable, we will go back the faculty hiring plan. Ken Wagman stated that if we are planning on cutting another $150,000 dollars from the spring schedule that gets us close to the mandated number the state pays for. He is concerned that as we are not cutting other things we are still cutting from the classroom and that we are cutting it awfully close and he hopes some of the money goes into the spring semester and not wait until fall. Dr. Steve Kinsella stated that we are over on faculty obligation and we are still generating more FTEs than what the state is paying for. In response to Tony Ruiz, Dr. Steve Kinsella stated that growth money will be available. We will keep the cuts in the spring, no reduction will be made in the fall or summer. Walt Glines urged everyone to contact their legislators to inform them how funding cuts affect the college structure.
   Vote: 7 ayes, 0 nays, student trustee aye, to approve

   (b) Educational Master Plan
   Dr. Kathleen Rose reported that the draft was presented last month for information and the final is presented tonight for a vote. It is needed for accreditation and has been fully vetted.

   MSC (K.Child/T.Breen) 7 ayes, 0 nays, student trustee aye, to approve BP 1200 and 2715 only

   (e) Accreditation Self Study
   Ken Wagman stated that we are asking the Board to approve thousands of hours of work from a lot of staff members. Thank you to everyone who met, wrote, edited, revised, and researched. Thank you to Kent child for representing the Board on the task force, thank you to Dr. Kinsella, Dr. Rose, and Pilar Conaway. Kent Child stated that this is the best, most qualitative, professional, self study in the time he has been here, and thanked everyone who worked on it. In response to Walt Glines, Ken Wagman stated that if we don’t meet a standard we develop a plan to meet it, which is also included in the report. Dr. Steve Kinsella stated that when a standard is not met, a department’s program plan is revised to redirect resources and correct the deficiency. Walt Glines suggested that the revised plans indicate that it is related to an accreditation plan for added weight. Walt Glines reported that at a Board of Trustee conference, it was strongly suggested that trustees familiarize themselves with their college’s self study. In response to Mark Dover, Dr. Steve Kinsella stated that when a standard isn’t met, it will show up as a recommendation for correction. We will follow up to correct and meet the standard or determine that it is no longer an issue. Dr. Kathleen Rose acknowledged Ken Wagman for his work and bringing us to this “one voice” document.
   Once it goes to the commission the Board will be kept informed about the visit.
   MSC (K.Child/M.Dover) 7 ayes, 0 nays, student trustee aye, to approve
(f) College Hour
MSC (AJ Rodriguez/M.Dover) to approve
Discussion: AJ reviewed the research, Senate approval, the survey showing a 78% positive response, and the ASB resolution. The following were comments made or information given:
- Research shows the number one reason for students dropping out is not making connections.
- College hour allows students to get involved and connect with each other through activities and events. It makes it easier for students to meet with teachers and peers, to collaborate, complete projects, and join study groups. It makes it easier for those who find it hard to find time to meet. It helps students academically and to graduate with higher grades.
- Some statements in the research oppose college hour. Many on campus don’t know about the proposal. Prime time slots are 9-1. College hour on two days will shut down 50 classrooms. An average of 1500 students during that time won’t be able to take classes. It seems unreasonable how many students would attend any event compared to students who would rather be in the classroom. Most students, 76%, attend school part time because of work or family. To do something that a small number of students want at the cost of the majority does not make sense.
- It was suggested that the college hour be highlighted and promoted so those who want to be involved can schedule their classes around it and those who want to go to class can do so. It takes individuals to promote activities and get students involved, not a scheduled college hour.
- A lot of research, time, and thought went into the proposal and has been in the works for years. It has been reviewed by the Academic Senate, President’s Council, and other groups. It doesn’t affect classes. People who are against college hour are willing to give it a try.
- It will help increase the number of clubs, activities, and facilitate meetings.
- There will be some exceptions to college hour and some classes will be continued during college hour. Not every class will stop.
- Congratulations to the current ASB for picking up from the last ASB on this. It has been over a year in the making. The ASB represents all students on campus, they should be backed up.
- If it is approved, records of tangible outcomes at the end of the semester and the end of the year should be kept for evidence to be used as a basis to move forward.
- Some real issues have been stated that are very valid. Apathy is a concern. It will require student and faculty participation to make that common hour meaningful. What ASB has done is a model of democracy with passion and research. There will be problems that will come up but can be worked through. Not everyone will benefit from this and some will be inconvenienced. Issues can be addressed with careful decisions of which classes students need to take that can be scheduled at times not affected by the common hour.
- No classes will be cut, the same number of periods will be held, just an hour later. We may also attract some people who want to take a class after work. Some labs and ESL classes will meet.
- The students are commended for their efforts. It was suggested to have the fewest exceptions possible for everyone to have an opportunity to participate.
