# TABLE OF CONTENTS

1.0 Cover Letter

2.0 Executive Summary

3.0 The Planning Process
   3.1 The Planning Team
   3.2 Program Mission
   3.3 Values: Our “Filter” for Actions and Activities
   3.4 Vision: What our Outcomes Should Be
   3.5 Actions: How Decision-Making Will Occur
   3.6 Planning Guidelines
   3.7 Strategies: How to Make this Vision Real
   3.8 Scope of Study
   3.9 Review of Existing District Information
   3.10 Meetings

4.0 Key Planning Issues
   4.1 Planning Issues – General
   4.2 Capacity and Space Utilizations Issues
   4.3 Campus Infrastructure
   4.4 Safety
   4.5 Accessibility Design Issues
   4.6 California Environmental Quality Act Issues
   4.7 Sustainable Design Issues
   4.8 Campus Identity and Wayfinding
   4.9 The Learning Environment and the ‘Smart Classroom’
   4.10 Key Concepts
   4.11 Steps in the Planning Process for Smart Classrooms
   4.12 Need for Standards
   4.13 Future Expansion Considerations

5.0 Master Plan Recommendations
   5.1 Recommendation Narrative
   5.2 General Building Scope and Priorities
   5.3 Other Projects/Scope
   5.4 Scope Excluded from Bond Program
   5.5 Building Project Data Sheets

6.0 Design Guidelines
   6.1 Design Guidelines Narrative
   6.2 Architectural Material and Equipment Standards
   6.3 Mechanical and Electrical Material and Equipment Standards
   6.4 Technology Guidelines

7.0 Master Schedule and Project Phasing
   7.1 Master Schedule
8.0  Master Budget and Projects Budget
   8.1  Funding
   8.2  Master Budget
   8.3  Project Budgets

9.0  Appendices (See Volume 2)
   9.1  Minimum Technology Standards for Classrooms and Laboratories
   9.2  A Guide to Understanding and Using the State Five-Year Construction Plan
   9.3  Guidelines for Facility Planning – Improving Capacity-to-Load Ratios
   9.4  Developing Program Guidelines – Office Spaces for California Community Colleges
   9.5  Exhibit Chart – Learning Space Design Theory and Practice
   9.6  LEED Sustainability Guidelines
   9.7  Stakeholder Issues and Feedback
