To the Board of Trustees
Gavilan Joint Community College District
Gilroy, California

We are pleased to present this letter related to the conduct of the audit of the financial statements of Gavilan Joint Community College District (the "District") as of and for the year ended June 30, 2011. This report is intended to inform the Board of Trustees of Gavilan Joint Community College District about significant matters related to the conduct of the annual audit so that it can appropriately discharge its oversight responsibility, and that we comply with our professional responsibilities.

The following summarizes certain matters required by professional standards to be communicated to you in your oversight responsibility for Gavilan Joint Community College District's financial reporting process.

The Auditor's Responsibility Under Generally Accepted Auditing Standards

Our audit of the financial statements of Gavilan Joint Community College District for the year ended June 30, 2011 was conducted in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error, fraudulent financial reporting or misappropriation of assets. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Accordingly, the audit was designed to obtain reasonable, rather than absolute, assurance about the financial statements. We believe that our audit accomplished that objective.

In accordance with Governmental Auditing Standards, we have also performed tests of controls and compliance with laws and regulations that contribute to the evidence supporting our opinion on the financial statements. However, they do not provide a basis for opining on the District's internal control or compliance with laws and regulations.

Adoption of, or Change in, Accounting Policies

The Board of Trustees and management have the ultimate responsibility for the appropriateness of the accounting policies used by the District. Significant accounting policies are included in Note 1 to the financial statements. Following is a description of a significant accounting policy or its application which was either initially selected or changed during the year:

- The District adopted Governmental Accounting Standards Board (GASB) Statement No. 59, Financial Instruments Omnibus (GASB Codification Section 150) on July 1, 2010. The adoption of this statement did not have a material impact on the District's net assets, change in net assets and cash flows.
Adoption of, or Change in, Accounting Policies (Continued)

The following financial accounting standards have been issued but were not required to be adopted for the year ended June 30, 2011:

Accounting and Financial Reporting for Service Concession Arrangements

In November 2010, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 60, Accounting and Financial Reporting for Service Concession Arrangements. This statement addresses how to account for and report service concession arrangements (SCAs), a type of public-private or public-public partnership that state and local governments are increasingly entering into. Common examples of SCAs included long-term arrangements in which a government (the "transferor") engages a company or another government (the "operator") to operate a major capital asset in return for the right to collect fees from users of the capital asset. In these SCAs, the operator generally makes a large up-front payment to the transferor. Alternatively, the operator may build a new capital asset for the transferor and operate it on the transferor's behalf. The requirements of GASB Statement No. 60 are effective for financial statements for periods beginning after December 15, 2011. In general, its provisions are required to be applied retroactively for all periods presented. The adoption of GASB Statement No. 60 is not expected to have a material impact on the District's net assets.

The Financial Reporting Entity: Omnibus – An Amendment of GASB Statements No. 14 and 34

In November 2010, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 61, The Financial Reporting Entity: Omnibus. This statement is designed to improve financial reporting for governmental entities by amending the requirements of GASB Statement No. 14, The Financial Reporting Entity, and GASB Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments, to better meet the needs of users and address reporting entity issues that have come to light since GASB 14 and GASB 34 were issued in 1991 and 1999, respectively. This statement is intended to improve the information presented about the financial reporting entity, which is comprised of a primary government and related entities (component units). In addition, GASB 61 amends the criteria for blending – reporting component units as if they were part of the primary government – in certain circumstances. The requirements of GASB 61 are effective for financial statements for periods beginning after June 15, 2012. The District is currently assessing the potential effect of GASB Statement No. 61 on its net assets.

Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements

In December 2010, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 62, Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements. This statement is intended to enhance the usefulness of the Codification of Governmental Accounting and Financial Reporting Standards by incorporating guidance that previously could only be found in certain FASB and AICPA pronouncements. GASB 62 incorporates into the GASB's authoritative literature the applicable guidance previously presented in the following pronouncements issued before November 30, 1989:
Adoption of, or Change in, Accounting Policies (Continued)

Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements (Continued)

- FASB Statements and Interpretations;
- Accounting Principles Board Opinions; and
- Accounting Research Bulletins of the AICPA's Committee on Accounting Procedure.

By incorporating and maintaining this guidance in a single source, the GASB believes that GASB Statement No. 62 reduces the complexity of locating and using authoritative literature needed to prepare state and local government financial reports. In addition, GASB Statement No. 62 is expected to improve financial reporting by eliminating the need for financial statement preparers and auditors to determine which FASB and AICPA pronouncement provisions apply to state and local governments, thereby resulting in a more consistent application of relevant guidance in financial statements of state and local governments. Further, GASB Statement No. 62 contributes to the GASB's efforts to codify all sources of generally accepted accounting principles for state and local governments so that they can be found within a single source. The requirements of GASB Statement No. 62 are effective for financial statements for periods beginning after December 15, 2011. The adoption of GASB Statement No. 62 will have no impact on the District's net assets.

Significant or Unusual Transactions

We did not identify any significant or unusual transactions or significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Alternative Treatments Discussed with Management

We did not discuss with management any alternative treatments within accounting principles generally accepted in the United States of America for accounting policies and practices related to material items during the current audit period.

Accounting Estimates and Management Judgments

Accounting estimates are an integral part of the preparation of financial statements and are based upon management's current judgment. The process used by management encompasses their knowledge and experience about past and current events and certain assumptions about future events. Management has informed us that they used all the relevant facts available to them at the time to make the best judgments about accounting estimates, and we considered this information in the scope of our audit. Estimates significant to the financial statements include the Apportionment Calculation. You may wish to monitor throughout the year the process used to compute and record these accounting estimates.

We have evaluated the reasonableness of accounting estimates in relationship to the financial statements taken as a whole and concluded that management's approach to these estimation processes is reasonable.
Significant Audit Adjustments

There were no audit adjustments made to the original trial balance presented to us to begin our audit.

Uncorrected Misstatements

We noted one uncorrected misstatement, that was determined by management to be immaterial to the financial statements taken as a whole, that was not made to the financial statements. This uncorrected misstatement is summarized in the accompanying schedule.

Other Information in Documents Containing Audited Financial Statements

We are not aware of any documents that contain the audited financial statements. If such documents were to be published, we would have a responsibility to determine that such financial information was not materially inconsistent with the audited financial statements of the District.

Disagreements with Management

We encountered no disagreements with management over the application of significant accounting principles, the basis for management's judgments on any significant matters, the scope of the audit or significant disclosures to be included in the financial statements.

Consultations with Other Accountants

We are not aware of any consultations management had with other accountants about accounting or auditing matters.

Major Issues Discussed with Management Prior to Retention

No major issues were discussed with management prior to our retention to perform the aforementioned audit.

Difficulties Encountered in Performing the Audit

We did not encounter any difficulties in dealing with management relating to the performance of the audit.
