Catalog description: (if additional space is required, attach a sheet)

This foundational curriculum course presents an overview of knowledge and skills needed for designing curriculum and environments for all young children. Students examine the teacher's role in supporting development, fostering creativity, and modeling a joy of learning for children and parents. Students will design and implement an integrated curriculum based on observation and assessment and emphasizes play, and design learning centers for literacy, social, emotional, sensory, art, perceptual, math, and science learning. Students complete an activity folder and participate in demonstrations and observations. Previously listed as CD 21, (C-ID: ECE 130). ADVISORY: Eligible for English 250 and English 260.

Justification for Need: (if additional space is required, attach a sheet)

Recommendation by curriculum review team. CD21 was modified in 2010 to comply with the CA Child Development Alignment Project guidelines. At that time content and number of units were changed to the existing CD21. We are now moving forward in having the CD21 course listed in our AA content/graduation requirements and a concern came to the table. Students taking the course as CD21 before the revision two years ago and for 2 units had different content/outcomes. The recommendation was to change the number completely so, there would be no confusion.

REQUIRED SIGNATURES

Course Title Introduction to Curriculum College GAVILAN

LOCAL CURRICULUM APPROVAL

Credit course has been approved by the curriculum committee, instructional administration and district governing board, and satisfies all applicable requirements of Title 5 regulation.
