COURSE DESCRIPTION:

This course is designed for chief officers, company officers and planners. Key topics include: principles of disaster planning and management, fire service emergency plans, emergency operations centers, case studies of various material and man made disasters, and roles of local, state and federal OES and emergency management agencies, discussion of multi-hazard and ICS planning techniques, and principles of existing emergency management staff. PREREQUISITE: Fire Command 2A, I-200 (Basic ICS)

ADVISORY: Eligible for English 250 and English 420

PREREQUISITES:

COREQUISITES:

CREDIT STATUS: D - Credit - Degree Applicable

GRADING MODES

L - Standard Letter Grade

REPEATABILITY: N - Course may not be repeated

SCHEDULE TYPES:

02 - Lecture and/or discussion

STUDENT LEARNING OUTCOMES:

1. Provide the student with a brief history of emergency management programs at the local, state, and federal level, their current function and available funding sources.
2. Provide the student with the management tools, techniques, and resources currently available to develop an on-going emergency management program that would involve a range of local government departments, community agencies, and private entities.

3. Provide the student with the basic principles of emergency management plan development, available guidance, and related terminology to include the usage of the Incident Command System.

4. Provide the student with the basic principles, technical aspects, equipment components, and common features of facilities/areas that may be used as an Emergency Operations Center (EOC), and a description of mutual aid agreements and their application in disaster situations.

5. Provide the student with basic techniques for day-to-day management and how to make the emergency management program a valuable asset to their jurisdiction; to include interface with community groups, private businesses, support groups, and other organizations through appropriate training and an exercise development program.

6. Provide the student with the current legislative and liability issues, as well as community pressure, that are currently influencing emergency management programs to include current information received from recent disaster situations and their impact upon emergency management programs.

7. Student will be able to describe and demonstrate their acquired knowledge through programmed exercises and simulations.

CONTENT, STUDENT PERFORMANCE OBJECTIVES, OUT-OF-CLASS ASSIGNMENTS
Inactive Course: 09/26/2011
1 Week 40 Hrs. Description of Content, "Out-of-Class" Assignments, and Student Performance Objectives, e.g. essays, library research, problems, projects required outside of class on a 2 to 1 basis for lecture units granted.

1. Orientation and Administrative Details
2. Introduction and Purpose of the Course
3. Description of Emergency Situations
4. Project Assignment Description
