COURSE DESCRIPTION:

This course will provide students with information on Rapid Intervention Crew (RIC) terminology and the tools necessary to conduct a fire fighter rescue operation. It provides the student with command awareness and the control techniques required to effectively manage a fire fighter emergency event should the situation occur. Students will conduct an analysis of fire fighter line-of-duty injuries case studies, taking into account both risk and critical fireground factors, in order to learn from and prevent a fire fighter emergency situation.

ADVISORY: Fire Fighter Academy

PREREQUISITES:

COREQUISITES:

CREDIT STATUS: D - Credit - Degree Applicable

GRADING MODES

P - Pass/No Pass

REPEATABILITY: N - Course may not be repeated

SCHEDULE TYPES:

02 - Lecture and/or discussion
03 - Lecture/Laboratory
04 - Laboratory/Studio/Activity

STUDENT LEARNING OUTCOMES:
1. Conduct a risk management assessment of structural fire fighting critical fireground factors in an effort to prevent a fire fighter emergency situation. 
Measure: Skills test, class exercise
PLO: 1, 2, 3
ILO: 2, 1
GE-LO:
Year Assessed: 2012

2. Manage a fire fighter emergency situation should fire fighters become lost or trapped inside a burning structure.
Measure: Skills demonstration
PLO: 2, 3, 1
ILO: 2, 1
GE-LO:
Year Assessed: 2012

CONTENT, STUDENT PERFORMANCE OBJECTIVES, OUT-OF-CLASS ASSIGNMENTS
Curriculum Approval Date: 10/28/2013
1.5 Hours
Content: Rapid Intervention Crew Terminology and Tools
A. Terminology
1. 1/3-1/3-1/3 rule
2. 2-in/2-out rule
3. Accountability System
4. Emergency Air Supply/ Breathing
5. Personnel Accountability Report (PAR)
6. Rapid Intervention
7. Wall Breach
8. Void Search
B. Basic Tool Cache Requirements
1. RIC Bag
2. Forcible Entry Tools
3. Flashlight
4. Power Tools
5. Cable Cutter
6. Ground Ladders
7. Search Line
C. Rescue Tool Cache
1. Air Bags
2. Cribbing
3. Shoring
4. Backboards
5. Jacks
Student Performance Objectives (SPO): Identify the tools necessary to conduct a fire fighter rescue operation
Out-of-Class Assignments: Review the Glossary and Basic Tool Cache Requirements
2.5 Hours
Content: Fire Fighter Line-of-Duty Death and Injury Case Study

A. National Institute of Occupational Safety and Health (NIOSH) Case Study #1 Wisconsin - Career Engineer Dies and Fire Fighter Injured After Falling Through Floor While Conducting a Primary Search at a Residential Structure Fire
   1. Review Summary
   2. Review NIOSH Safety /Operational Recommendations
   3. Recommendations and Discussions
B. NIOSH Case Study # 2: California - Commercial Structure Fire Claims the Life of One Fire Fighter
   1. Review Summary
   2. Review NIOSH Safety / Operational Recommendations
   3. Recommendations/Discussion
C. Fire Fighter Fatality and Injury Analysis Matrix
   1. Critical Factors
   2. Case Study
   3. Findings

Student Performance Objectives (SPO): Document your findings for each of the critical factors in the Fire Fighter Fatality and Injury Analysis Matrix.

Out-of-Class Assignments: Reading Command and Control of the RIC Deployment Student Manual: Fire Fighter Fatality and Injury Case Study Analysis

4 Hours

Content: Critical Fireground Factors and the Risk Management Process

A. Risk Management
   1. Risk management is the method used in pre-emergency and emergency settings to reduce the likelihood of exposure to injury or loss
      a. Significant risk should be taken to save a life
      b. Minimal risk should be taken to save property
      c. No risk should be taken to save lives or property that cannot be saved
B. Risk Management Process
   1. Five steps of the risk management process
   2. Step 1: Situational Awareness
   3. Step 2: Hazard Assessment
   4. Step 3: Hazard Control
   5. Step 4: Decision Point
   6. Step 5: Evaluate
C. Low Frequency / High Risk Situations
   1. Situations that result in many fire fighter injuries and fatalities
      a. RIC Operations
      b. Interior Fire Attack
      c. Vertical Ventilation
      d. Civilian Rescue
D. Warning Signs of a Pending RIC Deployment
   1. Factors that have been present prior to tragic events
   2. Potential problems can be seen at all levels
   3. Entry delays
   4. Interior Attack
   5. Single Door Entry
   6. Zero Visibility
   7. Low Air
   8. High Stress/Time - Compressed Event
Student Performance Objectives (SPO): Describe the risk management process.
Out-of-Class Assignments: Review the NIOSH investigation reports included in your student manual. Use the five step risk management worksheet included in the student manual to help instill the process of properly evaluating every structure fire using the safest mode of operation.

8 Hours
Content: Fire Fighter Line of Duty Death and Injury Case Studies

A. NFPA Statistics
1. Structure Fire Statistics
2. Fire Fighter Injuries
3. Fireground Fatalities

B. Scenario Training NFPA Case Studies

Student Performance Objectives (SPO): Describe and apply methods used to command and control a RIC deployment
Out-of-Class Assignments: Reading assignment

METHODS OF INSTRUCTION:
Skills Demonstration, Lecture, Scenario Training

METHODS OF EVALUATION:
CATEGORY 1 - The types of writing assignments required:
Percent range of total grade: 10. % to 15 %
Reading Reports

If this is a degree applicable course, but substantial writing assignments are NOT appropriate, indicate reason:
Course primarily involves skill demonstration or problem solving

CATEGORY 2 - The problem-solving assignments required:
Percent range of total grade: 20 % to 30 %
Field Work
Other: Skills Exam

CATEGORY 3 - The types of skill demonstrations required:
Percent range of total grade: 50 % to 90 %
Class Performance/s
Field Work
Performance Exams

CATEGORY 4 - The types of objective examinations used in the course:
Percent range of total grade: 30 % to 50 %

Other: Skills Demonstration

REPRESENTATIVE TEXTBOOKS:
Required:
California State Fire Training, Command and Control of the RIC Deployment Student Manual, State Fire Training, 2012, or other appropriate college level text.
Other textbooks or materials to be purchased by the student:
OSHA 29 Code of Federal Regulations (CFR)
NFPA Recommended Practices in Emergency Service Organization Risk Management
California Code of Regulations, CCR, Title 8, Section 5144(g)

ARTICULATION and CERTIFICATE INFORMATION
Associate Degree:
CSU GE:
IGETC:
CSU TRANSFER:
    Transferable CSU, effective 201430
UC TRANSFER:
    Not Transferable
