Curriculum Approval Date: 02/25/2013

1.5 - 3 Hours: Course orientation, including grading and the procedures for use of the open lab.
SPO: Students will explain the requirements of the course, including how they are graded, the dress code, and use of the workout chart. They will correctly log themselves in and out of the lab.

3 - 6 Hours: Continue orientations as needed. Introduce flexibility exercises and the major muscle groups being targeted. Discuss the importance of stretching both before and after working out. Introduce, demonstrate, and describe each of the stations on the resistance machines - lat pull, leg press, pec deck, leg extension, leg curl, upright rowing, incline/bench/shoulder press, and ab/ad thigh machine - including identifying the major muscles being targeted. Emphasize the importance of safety.
SPO: Students will describe and demonstrate basic stretching exercises and describe the importance of stretching. They will demonstrate each of the stations on the resistance machines. They will identify the major muscle groups being utilized.

4.5 - 9 Hours: Introduce basic core stabilization training; i.e. drawing in maneuvers, bracing, plank, and bridging. Different types of exercise workout routines will be explained. This could include workouts for the total body, split routines, or upper/lower body split routines. These workouts would be basic strength exercises, utilizing single or multiple joint exercises and include 1 - 3 sets of 12 - 20 reps.
SPO: Students will demonstrate and discuss basic core stabilization training. They will experience different types of exercise workouts utilizing the stations on the resistance machines.

16.5 - 33 Hours: Continue to demonstrate and review the proper use of the resistance training equipment available in the lab including the importance of safety. Assist students with developing a muscular strength training program specific to their needs. This program would include all or most of the stations on the resistance machines.
SPO: Students will develop a workout routine and apply the skills learned into a weekly workout program. They will record their progress on their workout chart. They will utilize safe lifting practices.
