Measure of assessment: pre and post testing, demonstration

Year assessed, or planned year of assessment: 2017

CONTENT, STUDENT PERFORMANCE OBJECTIVES, OUT-OF-CLASS ASSIGNMENTS

Curriculum Approval Date: 05/12/2020

3 - 6 Hours:

Content: Orientation of course requirements. Students will complete a personal health profile and determine their target heart rate. Pre-testing to determine their current aerobic capacity. Begin aerobic exercise program.

Student Performance Objectives: Complete a personal health profile, determine their target heart rate, participate in pre-testing, and participate in aerobic exercises.

3 - 6 Hours:

Content: Review from level 2 about the components that make up a complete fitness program. Introduce additional muscular strength and muscular endurance training exercises such as crunches with a twist, medicine ball crunches, medicine ball soccer throw and additional aerobic activities such as burpees, mountain climbers and jump rope.

Student Performance Objectives: Review the components that make up a complete fitness program and identify and demonstrate exercises that fit into each of them. Participate in class workouts and monitor their THR to determine if they are exercising at 60% - 80% of their THR.

3 - 6 Hours:

Content: Review from level 2 on the principles of FITTE. The importance of exercising 1 or 2 days outside of class time, based on the "F"requency of exercise will be stressed as well as exercising at a high level (60% - 80% of THR) of "I"ntensity. A review on body composition will be included. Continue flexibility, aerobic, muscular strength, muscular endurance, and body composition training program designed to improve one's overall health/fitness.

Student Performance Objectives: Review the principles of FITTE and discuss the importance of exercising outside of class time based on the "F"requency in the FITTE principles. Participate in class workouts at a high intensity level.

4.5 - 9 Hours:

Content: Classes will include a variety of flexibility, muscular strength, muscular endurance, cardiorespiratory (aerobic), and body composition activities. A review on goal setting as it relates to lifestyle changes will be provided, including a discussion on the changes/goals established at levels 1 and 2 and their status. Additional goal setting strategies will be introduced.

Student Performance Objectives: Participate in class workouts and monitor their THR to determine if their exercise intensity is between 60% - 80% of their THR. Identify 2 - 3 additional lifestyle changes and establish goals to achieve those changes.

10.5 - 21 Hours:

Content: Class structure will include flexibility, muscular strength training, muscular endurance training, aerobic, and body composition activities. The exercises could be performed individually, in small groups, and/or in mass and could include the use of a variety of exercise aids. An update on the student's lifestyle changes will be provided. Mini-lectures on such topics as weight control, vitamins, minerals, and/or eating disorders will be presented. The second "T" in FITTE will be discussed.

Student Performance Objectives: Participate in class workouts and monitor their exercise intensity level utilizing their THR. Evaluate the status of their lifestyle changes and the goals established to help them achieve those changes. Participate in the mini-lecture discussions and explain the "T"types of equipment utilized to help them improve their overall fitness.

1.5 - 3 Hours:

Content: Post-testing to evaluate each student's aerobic capacity, which will help determine their improvement.

Student Performance Objectives: Complete post-testing.

2 Hours:

Final.
