COURSE DESCRIPTION:

This course covers operations with integers, fractions, decimals and associated applications, ratio, proportion, geometry, and measurements with the emphasis on critical thinking and applications. Elementary algebra topics such as variables, expressions, and solving equations are introduced. This is a pass/no pass course where pass is given for mastery of the above topics. The mastery level is set by the department. PREREQUISITE: Completion of Math 400 with a grade of ‘C’ or better OR completion of Math 400 with a grade of ‘P’ OR appropriate assessment test score.

PREREQUISITES:

Completion of MATH 400, as UG, with a grade of C or better.
OR
Completion of MATH 400, as UG, with a grade of P or better.
OR
Score of 13 on Algebra Readiness
OR
Score of 12 on Elementary Algebra
OR
Score of 13 on Algebra Readiness - Revised
OR
Score of 2300 on Accuplacer Math

COREQUISITES:

CREDIT STATUS: C - Credit - Degree Non Applicable

GRADING MODES

4/10/2018
P - Pass/No Pass

REPEATABILITY: N - Course may not be repeated

SCHEDULE TYPES:
   02 - Lecture and/or discussion
   03 - Lecture/Laboratory
   04 - Laboratory/Studio/Activity
   04A - Laboratory - LEH 0.65

STUDENT LEARNING OUTCOMES:
1. Perform basic operations with whole numbers, integers, fractions, and decimals without the aid of a calculator.
   Measure of assessment: Quiz, Homework, exams, labwork.
   Year assessed, or planned year of assessment: 2017
   Semester: Spring
2. Analyze a variety of problems, decide on a correct method or strategy of solution, implement the strategy to solve the problems, and evaluate solution to determine if it is reasonable using estimation skills.
   Measure of assessment: Quiz, Homework, exams, labwork.
   Year assessed, or planned year of assessment: 2017
   Semester: Spring
3. Simplify algebraic expressions and solve equations involving integers, fractions, and decimals without the aid of a calculator.
   Measure of assessment: Quiz, Homework, exams, labwork.
   Year assessed, or planned year of assessment: 2017
   Semester: Spring
4. Set up and solve applied problems involving proportion, ratio, unit conversion, and percents.
   Measure of assessment: Quiz, Homework, exams, labwork.
   Year assessed, or planned year of assessment: 2017
5. Understand basic geometric properties involving lines, angles, and other geometric figures and use these properties to solve problems. Compute perimeter, area, and volume of geometric figures.
   Measure of assessment: Quiz, Homework, exams, labwork.
   Year assessed, or planned year of assessment: 2017
   Semester: Spring

CONTENT, STUDENT PERFORMANCE OBJECTIVES, OUT-OF-CLASS ASSIGNMENTS
Curriculum Approval Date: 03/26/2018
3 lec.
2 lab Hours
CONTENT: Review Order of operations, adding/subtracting positive/negative numbers.
Orientation to math lab and other tutorial sources of help on campus
HOMEWORK: Assigned reading and problems, lab assignment.
STUDENT PERFORMANCE OBJECTIVES: Student will be able to evaluate a numerical expression involving whole numbers, add and subtract integers and solve application problems without a calculator.
3 lec.
4/10/2018
2 lab Hours
CONTENT: Multiplying/dividing and order of ops with integers
Introduce concept of variables.
Math study skills, test taking strategies
HOMEWORK: Assigned reading and problems, lab assignment.
STUDENT PERFORMANCE OBJECTIVES: Student will be able to add/subtract, multiply/divide integers, evaluate a numerical expression involving integers without a calculator and solve application problems. Students will also be able to simplify simple algebraic expressions.

3 lec,
2 lab Hours
CONTENT:
Simplifying algebraic expressions, solving equations
Exam #1 - Integers.
HOMEWORK: Assigned reading and problems, lab assignment.
STUDENT PERFORMANCE OBJECTIVES: Student will be able to simplify algebraic expressions and solve simple equations involving integers without a calculator.

3 lec,
2 lab Hours
CONTENT:
Simplifying fractions, mixed numbers vs. improper fractions.
Multiplying and dividing fractions.
Fraction Group Project
HOMEWORK: Assigned reading and problems, lab assignment.
STUDENT PERFORMANCE OBJECTIVES: Student will be able to simplify fractions, convert between mixed numbers and improper fractions, and multiply/divide fractions without a calculator. CONTENT: finding LCD, adding/subtracting fractions, order of operations
Review of operations with fractions - fraction worksheet
HOMEWORK: Assigned reading and problems, lab assignment.
STUDENT PERFORMANCE OBJECTIVES: Student will be able to find the LCD of two or more fractions, add/subtract fractions and evaluate numerical expressions involving fractions without the use of a calculator, and solve application problems.

3 lec,
2 lab Hours
CONTENT:
Simplifying complex fractions, simplifying expressions involving fractions and solving equations with fractions
Fraction project
HOMEWORK: Assigned reading and problems, lab assignment.
STUDENT PERFORMANCE OBJECTIVES: Student will be able to simplify
complex fractions and algebraic expressions involving fractions and solve simple equations involving fractions without the use of a calculator, and solve application problems.

3 lec,
2 lab

Hours

CONTENT: Review of adding/subtracting, multiplying/dividing decimals, order of operations with decimals.

Decimal Project

HOMEWORK: Assigned reading and problems, lab assignment.

STUDENT PERFORMANCE OBJECTIVES: Student will be able to add/subtract, multiply/divide and evaluate numerical expressions with decimals without a calculator.

3 lec,
2 lab

Hours

CONTENT: Converting between fractions and decimals, equations with decimals,

Exam #2 - fractions and decimals

Review fractions and decimals

HOMEWORK: Assigned reading and problems, lab assignment.

STUDENT PERFORMANCE OBJECTIVES: Student will be able to work with a combination of fractions and decimals, and solve equations with fractions and/or decimals without a calculator.

3 lec,
2 lab

CONTENT: Ratios, Rates and Proportion, applications of proportions including similar and congruent triangles.

Proportion Project

HOMEWORK: Assigned reading and problems, lab assignment.

STUDENT PERFORMANCE OBJECTIVES: Student will be able to simplify a ratio, compute a rate, determine proportionality and solve a proportion and solve applications of proportions, including similar triangles.

3 lec,
2 lab

CONTENT: Ratios, Rates and Proportion, applications of proportions including similar and congruent triangles.

Proportion Project

HOMEWORK: Assigned reading and problems, lab assignment.

STUDENT PERFORMANCE OBJECTIVES: Student will be able to simplify a ratio, compute a rate, determine proportionality and solve a proportion and solve applications of proportions, including similar triangles.
3 lec,
2 lab

**CONTENT:** Review of Percentage/fraction/decimal, Solving percentage problems
**Percentage/Fraction/Decimal project**
**HOMEWORK:** Assigned reading and problems, lab assignment.

**STUDENT PERFORMANCE**
**OBJECTIVES:** Student will be able to express a percentage as a fraction and/or decimal and vice-versa, solve a basic percentage problem using a variety of methods.

3 lec,
2 lab

**CONTENT:**
Applications of percentages such as sales tax, mark up and discount and percentage increase/decrease.

**Percentage group project**
**HOMEWORK:** Assigned reading and problems, lab assignment.

**STUDENT PERFORMANCE OBJECTIVES:** Student will be able to set up and solve an application problem involving percentages.

3 lec,
2 lab

**CONTENT:** Exam #3 - ratio, proportions and percentages, Introduction to basic geometry such as measurement of angles, lines, parallel/intersection lines, Practice Test, Prepare for Exam
**HOMEWORK:** Assigned reading and problems, lab assignment.

**STUDENT PERFORMANCE**
**OBJECTIVES:** Student will be able to identify parallel lines, right angles, acute/obtuse angles, and draw an angle with a given measurement.

3 lec,
2 lab

**CONTENT:** Linear measurement, Metric vs. English, perimeter
**Geometry project**
**HOMEWORK:** Assigned reading and problems, lab assignment.

**STUDENT PERFORMANCE OBJECTIVES:** Student will be able to compute perimeter of basic geometric objects and convert between English and metric measurement systems.

3 lec,
2 lab

**CONTENT:** Measurement of area, volume, weight and mass
**Metric vs. English measurement activity**
**HOMEWORK:** Assigned reading and problems, lab assignment.

**STUDENT PERFORMANCE OBJECTIVES:** Student will be able to compute area and volume
of basic geometric figures and convert between English and metric measurement systems.

3 lecs.
2 lab Hours

CONTENT: Exam #4 - geometry and measurement, Review for final exam
Practice final exam
HOMEWORK: Assigned reading and problems, lab assignment.

STUDENT PERFORMANCE OBJECTIVES: Student will review semesters work and prepare for the final exam.
2 Hours final exam

METHODS OF INSTRUCTION:
Lecture, group work, and discussions.

OUT OF CLASS ASSIGNMENTS:
Required Outside Hours: 108
Assignment Description: Homework and lab assignments.

METHODS OF EVALUATION:
Writing assignments
Percent of total grade: 0.00 %
If this is a degree applicable course, but substantial writing assignments are not appropriate, indicate reason: Course is primarily computational; Course primarily involves skill demonstration or problem solving
Problem-solving assignments
Percent of total grade: 90.00 %
Percent range of total grade: 90 % to 100 % Homework Problems; Quizzes; Exams; Other: Projects, study skills assessment
Objective examinations
Percent of total grade: 5.00 %
Percent range of total grade: 5 % to 10 True/False; Matching Items; Completion

REPRESENTATIVE TEXTBOOKS:
Required Representative Textbooks
Elayn Martin-Gay. Prealgebra or other appropriate college level text.. Boston: Pearson,2015.
Reading Level of Text, Grade: 12 Verified by: Ken Wagman
