**Q23 - Use the space below to leave any further comments/suggestions/ideas.**

Use the space below to leave any further comments/suggestions/ideas.

I love Gavilan instructors, They motivate me to learn for the principal of gaining knowledge and to succeed. Hollister students can benefit from tutoring services provided at this location.

I like my instructors in the Hollister Site

More Library staff hours more time at least twice a week more classes in the morning and evening.

Offering more classes in Hollister so that young students don't have to shuttle back and forth would be helpful. Having math lab more than 2X a week offered at the exact time. If a student has class M/W at 11 they will never have the opportunity. Welcome Center needs to be educated more on services and where things are at. More tutoring times. Vending machine keeps getting more expensive. Food gets stuck often.

I think that Financial Aid and Student Loans help students succeed in College.

More class variety & higher classes benefits those that can't make it to Gilroy.

More classes at night I need Math classes

I have only come to this campus for one course, I am not very familiar with this campus site.
