Feedback for “The Evolution of Human Birth” PowerPoint

1. This is A-level work and models what I’m looking for.

2. What is great about this PowerPoint:
   • Great topic that will interest a broad audience.
   • Arguable thesis, not just a statement of fact.
   • Each slide provides evidence to support the thesis. The images help to bring the text points to life.
   • Neanderthal case study provides specific evidence to support the thesis.
   • Great final slide restating the take-home message.
   • Well-researched.
