The list of works cited should appear as the last page of your research paper. Begin the list on a new page and put your last name and the page number at the upper right corner of the page, continuing the page numbers of the text. Begin the list with the heading Works Cited, centered. The entire list should be **double-spaced** and in **alphabetical order** by the last name of each author. If the author's name is unknown, alphabetize by the title, ignoring any initial *A, An or The*. This is an example of what the top of your Works Cited page should look like:
