

Works Cited Page – MLA Internet and Multimedia Sources

The list of works cited should appear as the last page of your research paper. Begin the list on a new page and put your last name and the page number at the upper right corner of the page, continuing the page numbers of the text. Begin the list with the heading Works Cited, centered. The entire list should be **double-spaced** and in **alphabetical order** by the last name of each author. If the author's name is unknown, alphabetize by the title, ignoring any initial *A*, *An* or *The*.

Some of the most common Internet and Multimedia sources are listed below. **Remember, your entire list should be in alphabetical order. Don't group each type of source by category (like web sites, videos, etc.). Categories shown here are for your clarity.**

Parenthetical References

In MLA style, your sources are acknowledged by adding brief parenthetical references within your text. This coincides with your Works Cited page at the end of your paper. Generally, the author's last name or title (when the author's name is unknown) are enough to identify the source. The following are some examples of parenthetical documentation:

General Parenthetical reference

The Idiom, "ace" often means making an A on a school assignment (Oliver).

Parenthetical reference when the author's name appears in the text of your paper

According to Dennis Oliver, the idiom, 'ace' means to "make an 'A' on a test, homework assignment, project, etc."
