Cellular telephones provided by the District for compensatory reasons are classified by the Internal Revenue Service as a fringe benefit, the value of which must be included in an employee’s gross income.

The value of a cellular telephone provided by the District primarily for non-compensatory business purposes is excludable from an employee’s income. Employees will generally not be required to keep notes of business and personal use of District-issued cellular telephones when the telephones are issued for non-compensatory business reasons.

These rules do not apply to wireless or cellular phones owned by employees. Any reimbursements to employees for use of their own wireless or cellular telephones may be excluded from wages if the employee accounts for the expense pursuant to the Internal Revenue Service accountable plan.

Motor vehicle drivers may not use wireless or cellular telephones while operating their vehicles without a hands-free listening device. Drivers may use a wireless or cellular telephone to contact a law enforcement agency or public safety entity for emergency purposes. Drivers of motor trucks or truck-tractors, farm vehicles, tow trucks, a listed or described implement of husbandry, or a commercial vehicle, used in commercial agricultural operations may use a digital two-way radio service that utilizes a wireless or cellular telephone.

There shall be no expectation of privacy in the use of a District-issued cellular telephone.

AP 6451  Cell Phones

Internal Revenue Service regulations now in effect require the District to report the full value of the cost of the cell phone (purchase price plus monthly service fees) as income to employees. According to these regulations it is up to the employee to document the business portion of cell phone usage compared to the portion that is used for personal purposes. The tax impact to each employee who is assigned a District cell phone has caused the District to reevaluate use of cell phones.

The Gavilan Joint Community College District has identified three categories of employee who have different needs for cell phones in support of college operations. The category will determine the amount of cost paid by the District for cell phones. The District may provide either a cell phone to certain employees and a stipend to other employees to offset the employee’s cost of using their personal cell phones for District purposes.

**Group 1. Executive Administration** – Required to have a cell phone and be available at all times including nights, weekends and vacation periods:
- Superintendent/President
- Executive Vice President and Chief Instructional Officer
- Vice President of Student Services
- Vice President of Administrative Services

Group 1 employees receive an automobile and business allowance through their employment agreements. As a condition of receiving the allowance the Group 1 employees will be required to maintain a cell phone and have it available to conduct District business.

For the Group 1 employees, the automobile/business allowance is already reported as income in accordance with existing Internal Revenue Service regulations. No changes in income tax reporting by the District are necessary.

**Group 2. Facilities, Security and On-Call and Rotating Duty Personnel** – Employees by the nature of the areas of responsibility need to be available to campus personnel as needs arise.

Group 2 employees may be provided with a District paid cell phone or a stipend. Employees in the following positions may be provided with District cell phones:
- Director, Child Development Center
- Director, Management Information Systems
- Director, Facilities Services
- Director, Security and Support Services
- Assistant Director, Management Information Systems
- Student Health Nurse

IRS regulations require the District to report the cost of the cell phone including purchase of the cell phone, accessories and monthly service charges as income to employees. It is the responsibility of the employee to prepare documentation to show the portion of the costs related to District operations and the portion attributed to personal usage.

Approved by the Board of Trustees:  April 9, 2002
Adopted:  September 8, 2009
Amended by the Board of Trustees:  October 11, 2011
The District will acquire three additional cell phones that are not assigned to an individual and that will not be used after the campus is closed. The cell phones will be available to the following departments for on-campus use:

- Receiving Department
- Security
- Multimedia Technician

**Group 3. Employees to be paid a stipend for District use of personal cell phone**

There are a number of employees who can benefit from use of a cell phone but the cost of the District providing a cell phone is considerably more than using an alternative approach which is to provide a stipend to employees who agree to allow their personal cell phones to be used for District business. The employees in the following positions will be paid a monthly stipend of $30 per month:

- Dean, Career Technical Education
- Dean, Liberal Arts and Sciences
- Dean, Dept. of Kinesiology & Athletics
- Associate Dean, Disability Resource Center
- Associate Dean, Extended Opportunities Programs & Services
- Associate Dean, Community Outreach and Grants Management
- Director, Community and Contract Education
- Director, CalWORKs
- Director, Instructional Site, Hollister
- Director, Instructional Site, Morgan Hill
- Director, Public Information

Employees who receive stipends in lieu of cell phones will have the stipend included as income.

In all cases, employees who receive stipends or cell phones paid by the District are responsible for any income tax that may accrue to them. Except for Group I and II, employees may refuse the cell phone or the stipend. In those cases it is the responsibility of the employee to provide the District with a telephone number that can be used to reach them when the need arises.

This procedure will be updated and revised as needed to maintain currency with communications technology.
