Morgan Hill Site 2015 - 2016

Outcome	Assessment/ Measurement	Result	Use of Results
Continue promoting the services and usage of the new Welcome Center.	Morgan Hill site survey	66% of MH students are aware of the new Welcome Center.	The students are aware of this service, which allows them to receive assistance from a peer-mentor. We are hoping the usage of the Welcome Center will increase as students become more familiar with it.
Improve promotion of site services offered for new students at Morgan Hill	Local high schools and potential students	The site director will be working more closely with local high schools.	To assist future Gavilan students with the enrollment process and also inform them of the various services offered here at the site.
Improve the current STEM mobile lab. The batteries are dying at a fast rate.	Requests from the instructor.	The batteries are dying at a fast rate.	Purchasing new batteries for now will allow the STEM mobile lab to continue working, which then leaves the computer labs available for other classes.
Acquire a document camera for site use.	Several teachers from the English and ESL department have requested document cameras.	This would decrease the amount of copies made.	The decrease in amount of copies would support the overall goal of the college.
