

Course: AH 63

Also Listed As:

Term Effective: 200470, CURRICULUM APPROVAL DATE: 04/26/2004

Short Title: MED-SUR/MAT-NEONRSG

Full Title: Medical-Surgical/Maternal-Neonatal Nursing

<u>Contact Hours/Week</u>	<u>Units</u>	<u>Number of Weeks</u>	<u>Total Contact Hours</u>
Lecture: 6	11	17	Lecture: 102
Lab: 15			Lab: 255
Other: 0			Other: 0
Total: 21			Total: 357

Credit Status: D - Credit - Degree Applicable

Grading Modes: L - Standard Letter Grade

Repeatability: N

Schedule Types: 02 Lecture and/or discussion
 03 Lecture/Laboratory
 04 Laboratory/Studio/Activity

Course Description:

Course contains two components to provide theoretical and clinical experience in medical-surgical and maternal-neonatal nursing. Content includes care of clients with disorders of the circulatory, urinary and reproductive systems, normal pregnancy and birth, common or major complications, care of the normal newborn, and neonate with special problems. Related pharmacology is included.
PREREQUISITE: Successful completion of Allied Health 61 and 62 with a grade of C or better or equivalent. Equivalency determined by written and performance exams.
 \$100 course material fee, payable at registration.

ARTICULATION and CERTIFICATE INFORMATION

Associate Degree:

CSU GE:

IGETC:

CSU TRANSFER:

Transferable CSU, effective 200470

UC TRANSFER:

Not Transferable

PREREQUISITES:

Completion of AH 61, as UG, with a grade of C or better.

AND Completion of AH 62, as UG, with a grade of C or better.

COREQUISITES:

STUDENT LEARNING OUTCOMES:

1. Students will analyze pre-written patient plans of care and will individualize the plan to a specific patient.

ILO: 1,2,3,4,6,7

Measure: Written careplans

Clinical evaluations

2. Students will use principles of college-level mathematical concepts to correctly calculate medication dosages and intravenous solution flow rates.

ILO: 2,3

Measure: Clinical evaluations

Clinical calculation exams (required to pass the course)

3. Students will interact effectively with people of all ages, many cultures and ethnicities demonstrating awareness of the students' own values and opinions, as well as awareness and respect of the opinions and values of others.

ILO: 4,6

Measure: Clinical evaluations

Classroom participation in discussions regarding ethical dilemmas of patient care process recordings

4. Students will use therapeutic nursing interventions which reflect the standard of nursing practice. This will be exhibited by the student's ability to use psychomotor and psychosocial interventions which promote health; and prevent, minimize, or resolve problems as identified by the nurse and patient. Therapeutic interventions are independent actions grouped in theory-based research and experiences.

ILO: 2,1,3,4,6

Measure: Clinical evaluations mid and end of semester

Written and/or actual care plans each week

California exam for certification

or

NCLEX Nursing Licensure Exam

5. Student will reflect creative and critical thinking skills.

Creative and critical thinking is characterized by openness of inquiry, ability to ask pertinent questions, production of new ideas, flexible problem solving, examination of underlying assumptions, and an ability to present diverse perspectives.

ILO: 2,1,3,4,6

Measure: Written course work

Classroom presentations

Case studies

Exams

6. Students will communicate clearly, verbally and in writing using appropriate grammar, vocabulary and word usage with patients, peers, facility staff and instructors representing diverse populations and viewpoints.

ILO: 1,2,3,4,6

Measure: Written course work

Clinical evaluations

Essay questions on quizzes, exams

Interactive classroom assignments using computer software

7. Students will demonstrate appropriate active listening skills using techniques of therapeutic communication to verify that communication has been accurately interpreted. Students will use language interpreters at appropriate times in the clinical settings.

ILO: 1,2,3,4,6

Measure: Classroom presentations

Role play with instructor evaluation

Clinical evaluations

8. Students will critically analyze data from textbooks, patient charts including electronic charts, dictionaries, reference books, and the internet. Apply theoretical concepts and facts to real life situations, with computer simulated patient situations and exams.

ILO: 2,3,4,5,6,1

Measure: Written course work

Clinical evaluations

Exams

9. Students will utilize nursing process to prioritize and organize nursing care and to problem solve. Nursing process includes:

- a. Assessment of objective and subjective patient data
- b. Analysis of data using the information to develop patient outcomes in planning patient care
- c. Identify and implement appropriate nursing interventions to meet expected outcomes
- d. Revise the plan of care as needed based on the information from the evaluation

ILO: 2,1,3,4,6

Measure: Written care plans

Active care plans in the clinical setting

Clinical evaluations

Case studies using actual patients

TOPICS AND SCOPE:

Curriculum Approval Date: 04/26/2004

Please see topical outline of course content attached to the master course outline located in the Curriculum Specialist's office.

ASSIGNMENTS:

Each week the student will read appropriate chapters of the text and workbook and complete assigned exercises.

METHODS OF INSTRUCTION:

Lecture, lab, skills demonstration, return demonstration.

METHODS OF EVALUATION:

The types of writing assignments required:

Written homework

Reading reports
Lab reports
Essay exams
Term papers
Other: Classroom presentations, internet assignments
The problem-solving assignments required:
Homework problems
Quizzes
Exams
Other: Minimum 85% competency level pass/fail only
The types of skill demonstrations required:
Class performance
Performance exams
Other: Case studies, computer programs
The types of objective examinations used in the course:
Multiple choice
True/false
Matching items
Completion
Other: Calculations
Other category:
None
The basis for assigning students grades in the course:
Writing assignments: 15% - 85%
Problem-solving demonstrations: 5% - 10%
Skill demonstrations: 20% - 80%
Objective examinations: 30% - 90%
Other methods of evaluation: 0% - 0%
