### Course Outline

**COURSE:** APE 35                      **DIVISION:** 30                      **ALSO LISTED AS:** PE 35

**TERM EFFECTIVE:** Summer 2024                      **CURRICULUM APPROVAL DATE:** 06/11/2024

**SHORT TITLE:** ADAPTED SWIMMING

**LONG TITLE:** Adapted Swimming for Total Fitness

<u>Units</u>	<u>Number of Weeks</u>	<u>Type</u>	<u>Contact Hours/Week</u>	<u>Total Contact Hours</u>
.5 OR 1	18	Lecture:	0	0
		Lab:	1.5 OR 3	27 OR 54
		Other:	0	0
		Total:	1.5 OR 3	27 OR 54

---

Out of Class Hrs:            000.00

Total Learning Hrs:        27.00 OR 54.00

---

#### **COURSE DESCRIPTION:**

An individualized program of activities designed for students with physical disabilities to improve flexibility and range-of-motion, increase joint movement, improve circulation, and improve control of body movement through water adjustment and activities. May be repeated as necessary based on measurable progress as documented in the AAP (Accessible Accommodation Plan). This course has the option of a letter grade or pass/no pass.

**PREREQUISITES:**

**COREQUISITES:**

**CREDIT STATUS:** D - Credit - Degree Applicable

#### **GRADING MODES**

L - Standard Letter Grade

P - Pass/No Pass

**REPEATABILITY:** R - Course may be repeated

Maximum of 99 times, 100 credit hours

## SCHEDULE TYPES:

- 04 - Laboratory/Studio/Activity
- 047 - Laboratory - LEH 0.7
- 05 - Hybrid
- 71 - Dist. Ed Internet Simultaneous
- 73 - Dist. Ed Internet Delayed LAB
- 737 - Dist. Ed Internet LAB-LEH 0.7

## STUDENT LEARNING OUTCOMES:

By the end of this course, a student should:

1. Demonstrate three (3) adapted swim strokes.
2. Use five (5) aquatic exercises for a period of 20 minutes to show improved cardio conditioning.
3. Identify several principles of exercise physiology during adapted swimming.

## COURSE OBJECTIVES:

By the end of this course, a student should:

1. Locate their pulse (neck, wrist, temple or chest).
2. Identify the appropriate emergency contact information.
3. Adjust to the water and practice water safety skills, including floating, breathing, buoyancy, opening eyes underwater.
4. Demonstrate exercises for deep water cardiovascular training.
5. Identify which training methods work for their individual needs.
6. Demonstrate adapted swim strokes.
7. Practice adapted swim strokes and breathing techniques necessary for their limitations.
8. Recognize their own physical challenges and apply their knowledge during exercise.

## COURSE CONTENT:

Curriculum Approval Date: 06/11/2024

3-6 Hours

Course introductions and requirements such as: appropriate pool clothing, pool equipment, available parking for students with disabilities, use of pool lifts and exercise equipment, safety procedures when entering and exiting pool and locker rooms, prevention of theft of personal belongings, use of locks and storage of belongings, items students will need to bring for class. Students will meet individually with staff regarding health limitations, doctor's verification and Academic Accommodations Plan (AAP).

3.5-7 Hours

Introduction of daily warm-up activities including proper techniques for pool walking, arm swing and stationary stretching exercises. Demonstration of water safety skills including floating, breathing, and buoyancy.

3.5-7 Hours

Introduction of aquatic strength training exercises for improving cardiovascular conditioning and increased muscle stretching. Demonstration of the backward jog, hop over log, and above water arm exercises.

3.5-7 Hours

Introduction of aquatic wall exercises. They will demonstrate the flutter and bicycle kicks, wall push-ups, wall push-backs, and wall stretching that focuses on large muscle groups.

4.5-9 Hours

Introduction of upper and lower body exercises. Adductor and abductor muscle groups will be emphasized for the upper legs, bicep and tricep muscle use will be demonstrated for arm strength. Hamstring, quadriceps & gastrocnemius muscles for upper and lower leg stability.

**COURSE CONTENT(CONTINUED):**

3.5-7 Hours

Individual and group muscle demonstration on how the bicep and tricep muscles work during barbell extension and flexion and demonstrate knee flexion and extension.

3.5-9 Hours

Handouts are discussed and made available by the instructor. Review and discuss the importance of exercise, healthy food intake and current videos on adapted exercise. Students will exercise in small groups (2-3), each student selecting and demonstrating a different exercise until all exercises have been rehearsed.

2 Hours

Final exam: Demonstration test of large muscle groups. Instructor observation and evaluation of the Academic Accommodations Plan.

**METHODS OF INSTRUCTION:**

Through demonstration of aquatic exercises, lectures, health handouts and Internet resources that augment water activities, students will be working on individual fitness goals.

**METHODS OF EVALUATION:**

Skill demonstrations

Evaluation Percent 50

Evaluation Description

Skill demonstrations: 50% - 80%

Class performance

Performance exams

Evaluation Percent 50

Evaluation Description

Objective examinations: 20% - 50%

True/false

Other: oral exam

**ARTICULATION and CERTIFICATE INFORMATION**

Associate Degree:

GAV E1, effective 201570

CSU GE:

CSU E, effective 201570

CSU E1, effective 200970
