		Total:	1.5 OR 3	27 OR 54

COURSE DESCRIPTION:

This course is designed for students of all skill levels who desire to learn the fundamentals, mechanics, strategy and rules of the game of baseball. This course has the option of a letter grade or pass/no pass. Previously listed as PE 65. Course will be listed as ATH 65 effective Fall 2013.

PREREQUISITES:

COREQUISITES:

CREDIT STATUS: D - Credit - Degree Applicable

GRADING MODES

- L - Standard Letter Grade
- P - Pass/No Pass

REPEATABILITY: N - Course may not be repeated

SCHEDULE TYPES:

- 04 - Laboratory/Studio/Activity

STUDENT LEARNING OUTCOMES:

1. The students will perform the following skills: throwing, catching, hitting, fielding, bunting, base running, and sliding.

ILO: 7, 2

Measure: demonstration

2. The students will describe the mechanics for pitching and the skills required for the catchers position.

ILO: 7, 1, 2, 4

Measure: oral exam

3. The students will describe and execute the strategies for baseball, specifically bunt coverages, pick offs, hit and runs, and steals.

ILO: 7, 2, 1, 4

Measure: role playing, demonstration, exam

4. The students will apply the rules of baseball.

ILO: 2, 7, 1, 4

Measure: written exam, role playing

CONTENT, STUDENT PERFORMANCE OBJECTIVES, OUT-OF-CLASS ASSIGNMENTS

Inactive Course: 10/22/2012

3 - 6 Hours

Discuss course syllabus, grading and class procedures. Introduce conditioning, stretching and the correct running form that will be used in class. The correct throwing and catching mechanics will be presented. Introduction to the fundamentals of hitting a baseball. Students who repeat the class will have their skills or proficiencies enhanced by supervised repetition. They will discuss with their peers the importance of not allowing your weight to shift forward while hitting.

SPO: The correct mechanics of throwing, catching and hitting a baseball will be demonstrated. Students will participate in conditioning and stretching exercises.

6 - 12 Hours

Discuss, demonstrate and practice the correct fundamentals of fielding for both an infielder and an outfielder. Introduce and discuss the correct way to align the defense for cuts and relays. Bunt coverages, pick offs and rundowns will be presented. Discuss and implement the philosophy behind the short game and the hit and run. Students who repeat the class will be able to differentiate the footwork between infielders and outfielders. They will demonstrate the difference between the regular cut-off and the double cut-off and explain when they would be utilized. Repeat students will learn the rotation bunt coverage with runners at first and second base. They will explain and demonstrate the proper time to use the drag bunt.

SPO: Students will describe and demonstrate the correct fundamentals for infield and outfield play. They will explain how to utilize a relay person and the importance of using a cut-off person. Bunt coverage, pick offs and rundowns will be demonstrated. They will discuss the reasons why a team would initiate the bunt and/or hit and run play.

3 - 6 Hours

Discussion and demonstration on the correct way to run the bases, including how to use the first and third base coaches. Presentation on sliding. Introduce the offensive signs. Students who repeat the course will work on the double steal and the delay steal. They will also work on when to use the third base coach on a ball hit to the outfield and when to not use the third base coach.

SPO: The student will demonstrate the correct way to run out an infield hit, a ball hit in the air and a ball hit into the gap. At least two different types of slides will be performed. They will be able to read the offensive signs for a bunt, steal, and hit and run.

3 - 6 Hours

The mechanics of pitching and the fundamentals of catching will be discussed and practiced through a variety of drills. Repeat students will have their skills or proficiencies improved by supervised repetition and practice in class.

SPO: The students will describe the proper mechanics of pitching. They will discuss the fundamentals of catching; including blocking, framing, footwork and throwing.

6 - 12 Hours

Discussion and practice on the skills and responsibilities for infielders, outfielders, pitchers and catchers as it relates to teamwork. This will including fielding each position, backing up plays, and the use of proper techniques. Game-like practice situations will be provided. The rules of baseball will be discussed. Students who repeat the class will be provided leadership opportunities. Their skills will improve through supervised repetition and practice in class. They will have the opportunity to learn advanced skills such as a crow hop, circling the ball, and calling their own pitches.

SPO: Students will demonstrate correct fielding mechanics. They will diagram the route an outfielder takes when another outfielder is involved on the same play. They will explain when a catcher backs up first base and discuss the importance of a pitcher being able to field their position. Students will apply the rules during play.

4.5 - 9 Hours

Team competition and review for final. Students who repeat the class will be able to analyze various game play situations.

SPO: The students will demonstrate their skills during game play. They will execute the appropriate strategies and apply the correct technique based on the situation.

2 Hours

Final.

METHODS OF INSTRUCTION:

Demonstration, discussion, peer teaching.

METHODS OF EVALUATION:

The types of writing assignments required:

None

The problem-solving assignments required:

None

The types of skill demonstrations required:

Performance exams

The types of objective examinations used in the course:

Multiple choice

True/False

Matching items

Completion

Other category:

Other: Requires student participation

The basis for assigning students grades in the course:

Writing assignments: 0% - 0%

Problem-solving demonstrations: 0% - 0%

Skill demonstrations: 40% - 70%

Objective examinations: 10% - 30%

Other methods of evaluation: 30% - 60%

JUSTIFICATION:

The department is requesting a name change, from the Physical Education and Athletics Department to the Department of Kinesiology and Athletics.

The reasons for this action include:

1) A desire to follow suit with the 4-year colleges and universities.

2) A trend in the field. Community colleges are moving in this direction with Cabrillo College already taking this action. Others such as Sacramento City College, Mission College, and Diablo Valley College are also in the process of changing their name as well. Gavilan College can be a leader in this trend.

3) This more closely describes what our profession is about.

"Kinesiology is the academic discipline concerned with the art and science of human movement."

4) The state academic senate has proposed that Kinesiology and Exercise Science majors be added to the Disciplines List so they have recognized the move in this direction.

5) Over recent years, there have been discussions within the State regarding the need to streamline Physical Education as a discipline. This would help with the negative connotation that is often identified with this discipline. Gavilan College has worked hard to modify our programs to meet State requirements for our major. The name change would be another step in the right direction.
