JUSTIFICATION:

The department is requesting a name change, from the Physical Education and Athletics Department to the Department of Kinesiology and Athletics.

The reasons for this action include:

- 1) A desire to follow suit with the 4-year colleges and universities.
- 2) A trend in the field. Community colleges are moving in this direction with Cabrillo College already taking this action. Others such as Sacramento City College, Mission College, and Diablo Valley College are also in the process of changing their name as well. Gavilan College can be a leader in this trend.
- 3) This more closely describes what our profession is about.
"Kinesiology is the academic discipline concerned with the art and science of human movement."
- 4) The state academic senate has proposed that Kinesiology and Exercise Science majors be added to the Disciplines List so they have recognized the move in this direction.
- 5) Over recent years, there have been discussions within the State regarding the need to streamline Physical Education as a discipline. This would help with the negative connotation that is often identified with this discipline. Gavilan College has worked hard to modify our programs to meet State requirements for our major. The name change would be another step in the right direction.
